## AFRL hosts summer hire tour and recruiting event

WRIGHT-PATTERSON AFB, Ohio — Summer hires basewide toured AFRL's Air Vehicle's Directorate vertical wind tunnel recently during a daylong event sponsored by the laboratory. VA Mechanical engineer Jon Tinapple explained that the wind tunnel is the state-of-the-art rotary/oscillatory test facility in the U.S. Students made stops at each of the technology directorates' located at Wright-Patterson AFB as an orientation and recruiting tool for the laboratory. @ (Air Force photo by Jill Bohn)
